Summary

Dedicated Front-End Software Engineer with over 3 years of hands-on expertise in crafting exceptional user interfaces and driving web application development. Proficient in a wide range of front-end technologies. Translate complex design concepts into responsive, high-performance, and visually appealing user experiences. Proven track record of leading cross-functional teams, streamlining development processes, and consistently delivering projects on time and within scope.

Professional Experience

Front-End Engineer @ Ultainfinity

Sep 2022 - present || United Kingdom (Remote)

- Optimized productivity by 20% through the implementation of Redux Toolkit as the upgraded state manager tool.
- Incorporated Biometric authentication into web applications to facilitate seamless login, resulting in a 25% boost in user engagement.
- Implemented efficient code version control practices in GIT, including check-in, check-out, merging, and branching; ensuring seamless collaboration and synchronization among team members for enhanced productivity and code quality.
- Applied CSS animations to enhance user experience and boost engagement by 50%.

Front-End Developer @ STETIS Limited

Feb 2021 - Sep 2022 || Abuja, Nigeria

- Advocated for the transition from Class Components to Functional Components, resulting in significant development time reductions by 30% and notable improvements in code readability.
- Supervised the complete software development lifecycle for multiple projects, ensuring flawless 100% on-time deliveries.
- Engineered thumbnail sliders to optimized property images, and implemented lazy-loading techniques, resulting in a significant 40% reduction in page load time.
- Enhanced the performance of the existing web application by 70% through the implementation of code splitting and useMemo.

Front-End Developer @ STETIS Limited

Sep 2020 - Feb 2021 || Abuja, Nigeria

- Created an interactive dashboard for engaging with customers, agents, and merchants.
- Developed and maintained web applications using Next.js, ensuring high performance and code re-usability.
- Developed and executed multiple projects simultaneously to meet critical deadlines.
- Conducted testing of websites across all major browsers to ensure quality and consistency throughout.
