SUMMARY

Highly skilled Full Stack Developer with over 3 years of experience in designing, developing, and deploying robust web applications. Proficient in both front-end and back-end technologies, with a strong focus on creating user-friendly interfaces and scalable architectures. Adept at collaborating with cross-functional teams to deliver innovative solutions that meet client requirements and exceed expectations.

EXPERIENCE

Full Stack Developer

STETiS Limited

📅 02/2022 - Present   📍 Abuja, Nigeria

- Led the development of a messaging platform using React.js, which processed and sent hundreds of thousands of messages regularly.
- Improved a legacy full stack application by replacing it with Next.js, and Node.js, resulting in a 40% faster loading time for our data-heavy attendance application.
- Constructed Java-based micro-service applications to streamline development processes and enhance productivity.
- Designed and developed reusable front-end messaging and subscription components for a Human Capital Management application.

Frontend Developer

ULTAINFINITY GLOBAL GROUP

📅 10/2022 - 11/2023   📍 United Kingdom (Remote)

- Optimized productivity by 20% through the implementation of Redux Toolkit as the upgraded state manager tool.
- Incorporated Biometric authentication into web applications to facilitate seamless login.
- Implemented efficient code version control practices in GIT, including check-in, check-out, merging, and branching; ensuring seamless collaboration and synchronization among team members for enhanced productivity and code quality.

Frontend Developer

Offpista Ltd

📅 09/2022 - 10/2022   📍 Israel (Remote)

- Created an interactive dashboard for engaging with customers, agents, and merchants.
- Developed and maintained web applications using Next.js, ensuring high performance and code reusability.
- Conducted testing of website across all major browsers to ensure quality.

Frontend Developer

STETiS Limited

📅 09/2020 - 01/2022   📍 Abuja, Nigeria

- Advocated for the transition from Class Components to Functional Components, resulting in significant development time reductions by 25% and notable improvements in code readability.
- Supervised the complete software development lifecycle for multiple projects, ensuring flawless 100% on-time deliveries.
- Enhanced the performance of the existing web applications by 30% through the implementation of code splitting and useMemo techniques.
