

ADAM ARAGA

Senior Full-stack Developer

SUMMARY

Senior Full-Stack Developer with over 6 years of experience designing, developing, and deploying high-performance web and mobile applications using React, React Native, and Node.js. Expert in creating intuitive user interfaces and scalable backends, with proven integrations including payment processing, real-time messaging and calling, secure authentication, and geofencing. Demonstrated success across diverse industries, including real estate, transportation, education, banking, and government, managing sensitive data, navigating complex projects, and converting ambiguous requirements into reliable solutions.

EXPERIENCE

Inhouz | USA (Remote, Full-time)

Senior Full-stack Developer

Oct 2025 - Present

- Optimised MongoDB aggregation pipelines for a 5-6M+ record field operations dataset, improving query performance through sparse indexing and efficient data retrieval.
- Built real-time WebSocket architecture for mobile offline sync across a safety and field operations management platform, including geofencing and automated check-in/check-out compliance.
- Engineered a Node.js BLE asset-tracking system for Raspberry Pi devices in hospital environments, including cloud authentication and live data ingestion.

Town Runner | Nigeria (Remote, Part-time) 3 mos

Senior Full-stack Engineer (React Native)

Jul 2025 - Sep 2025

- Built client and rider delivery apps (React Native) with a Node.js backend, implementing delivery processing and real-time tracking.
- Implemented in-app chat and calling features, and integrated wallet and payment systems for secure, cashless transactions.
- Integrated real-time updates (sockets) and push notifications, ensuring riders and clients stayed in sync.

Lily Solutions | Abuja, Nigeria (Full-time) 1yr 1mos

Senior Full-stack Developer

Jun 2024 - Jun 2025

- Developed and optimized the company's landing page with Next.js, cutting load time by 40%.
- Built a staff collaboration platform, featuring file sharing, messaging, and admin tools for content management and announcements.
- Delivered scalable web apps across real estate, transportation, and portfolio sectors, showcasing versatility and technical depth.

SKILLS

Frontend

React.js, TypeScript, JavaScript, Next.js, React Native, Expo, Redux, Tailwind CSS, Material UI (MUI), Bootstrap, HTML, CSS, SCSS, jQuery, Webflow

Backend

Node.js, Express.js, GraphQL, REST APIs, Socket.io, Sequelize, JWT, OAuth, Java, Spring Boot

Databases

PostgreSQL, MySQL, MongoDB

DevOps & Cloud

AWS, Docker, Vercel, Netlify, Heroku, Git, GitHub, CI/CD

Testing

Jest, Cypress

Methodologies & Practices

Agile, Scrum

Metoda | Serbia (Remote, Part-time) 5mos

Front-end Developer

Aug 2024 - Dec 2024

- Delivered a pixel-perfect website with exceptional design fidelity.
- Implemented advanced image optimisation and performance tuning techniques to reduce load time and improve Core Web Vitals.
- Earned recognition for outstanding attention to detail and delivery quality.

Stetis Ltd | Abuja, Nigeria (Full-time) 4yrs 5mos

Senior Full-Stack Developer

Aug 2023 - May 2024

- Led development of a messaging platform with Next.js, processing hundreds of thousands of messages to clients, while maintaining performance and reliability.
- Rebuilt a legacy full-stack application using Next.js and Node.js, cutting load times by 30% for a data-heavy attendance system.
- Managed end-to-end SDLC for multiple projects, delivering 100% on schedule.

Full-stack Developer

Jun 2021 - Aug 2023

- Developed a full-stack mobile app for a restaurant to manage reservations and orders, streamlining operations and improving staff efficiency.
- Designed and implemented reusable messaging and subscription components for an HR Management application, improving development speed.
- Built Java-based microservices to streamline development workflows and boost team productivity.

Front-end Developer

Jan 2020 - Jun 2021

- Championed migration from Class to Functional Components, cutting development time by 25%.
- Improved code readability and maintainability by introducing hooks, patterns, and team best practices.
- Boosted application performance by 18% through code-splitting and React memoization techniques.

Ultainfinity Global Group | UK (Remote, Part-time) 1yr 3mos

Front-end Developer

Oct 2022 - Dec 2023

- Improved productivity by 20% by upgrading state management to Redux Toolkit.
- Integrated biometric authentication for seamless and secure user login.
- Streamlined collaboration and code quality by implementing efficient Git version control practices.

Offpista Ltd | Israel (Remote, Contract) 2mos

Front-end Developer

Sep 2022 - Oct 2022

- Built an interactive Next.js dashboard serving customers, agents, and merchants with reusable components for high performance.
- Performed cross-browser testing to ensure consistent quality and compatibility.

EDUCATION

P.G.D in Information Technology

National Open University

B.Sc. in Microbiology

Ahmadu Bello University

CERTIFICATES

The Complete Web Development Bootcamp

Udemy

JavaScript Algorithms and Data Structures

FreeCodeCamp

Responsive Web Design

FreeCodeCamp

Java Programming Masterclass
